

**Lesson idea: Family descriptions**

Age group	14/15 years old
Language	French/German/Spanish
Topic	Family
Expected Learning Outcomes	Pupils will be able to: <ul style="list-style-type: none">- Explain their family structure- Describe the members of their family (name/age/occupation/personality)
Digital technology activity	Pupils use ThingLink to upload a picture of their family; they then add text in the Target Language to say who each person is in relation to them (use of Family vocabulary) and they then record for each a description of each person to include their name, age, occupation and character traits
Digital technology resource(s)	ThingLink app
Duration of activity	May be used as a homework task once all of the relevant vocabulary has been introduced
Assessment	A pair-work assessment task with pupils assessing each other's work for accuracy of written and spoken Target Language and breadth of structures
Links to Bloom's Taxonomy	Remember: the vocabulary for members of the family and relationship phrases Understand: the objective of the task and how to carry it out Apply: knowledge of vocabulary and family description phrases both orally and in written form within the app Analyse: working through the different stages in the process firstly taking photos, then preparing a script, making any recordings that are necessary, finding relevant clipart and combining all the elements to create the final task Evaluate their task against a fixed set of assessment criteria before submission Create and present the final ThingLink in front of their classmates
